Domebox

FOR OWNERS AND HODS

# 5 signs your team runs on follow-ups, not systems.

And what to do about each one.

Swipe →

1

# You start every morning by asking who is doing what.

THE FIX

**Every task in Domebox has one owner and one deadline. The board shows who is doing what — no asking.**

# 2

# Work gets “done” and comes back wrong.

THE FIX

**A task closes only when the person who asked for it verifies it. Rework is counted, so quality shows.**

# 3

# You find out a job is late after the customer does.

THE FIX

**Late work turns red on its own, and reminders go out at 9 AM, 3 PM and 5 PM.**

# 4

# Appraisals are based on who you remember.

THE FIX

**Each person’s score is built from their own task record — on time, first-pass quality, the load carried.**

# 5

# Projects stall between one person and the next.

THE FIX

**Each stage has its own owner and deadline, and the next stage starts the moment one is approved.**

Domebox

# Recognised two or more?
# Try Domebox free.

14 days, no card. Set it up in an afternoon — or open the live demo first.

- Free plan for up to 5 people
- Paid plans from ₹999 a month
- Made in Kolkata for Indian MSMEs
